## WEEKLY REPORT

RAB VALLEY - phone discussion the PRP's representative about the status of the Focused Feasibility Study Report that was submitted to EPA and ODEQ in September, 2010. We had a meeting to go over the document in late November and a written summary of comments was to follow but nothing has been received thus far from the PRP. The representative stated that the written summary was awaiting final approval from the PRP. I will write the PRP a letter stating my understanding of the status, urging promptness to keep moving forward with their reply, and recommend a conference call to discuss the status and future plans.

WESTBANK ASBESTOS - worked on compiling a list of all releasable documents not only for two current FOIA requests but a list that should be very beneficial for all future request regarding this project.

RESPONSE DUTY OFFICER - began a week rotation as RDO

John J. Martin (6SF-PE)  
Federal On-Scene Coordinator  
US Environmental Protection Agency  
1445 Ross Ave / Dallas, Texas 75202  
OFFICE: (214) 665 - 6748 FAX: (214) 665 - 2278
